***The First-level Short Specialization Degrees** (*Master Universitario di Primo Livello*)

These courses lead to an out-of-mainstream university qualification; they can be accessed after a 1st cycle degree course or a comparable foreign degree. They last at least one year and involve the acquisition of at least **60 credits**. The corresponding qualification does not give access to 2nd or 3rd cycles. The latter degree course is also clearly different from the usual master degree, which – not only in English-speaking countries but also in the whole area of the Bologna Process – corresponds to the Italian *Laurea Magistrale*.
